SEPTEMBER 2007

## NEFE National Endowment for Financial Education

The NEFE High School Financial Planning Program is one of the most widely used and respected financial education programs around. This program is offered through the Credit Union and is used to help High School Students learn how to manage money and basic financial skills. Many of us know how important this is for the real world. Unfortunately many students are coming out of school with little or none of these skills. NEFE teaches Financial Maturity. When sound money habits are taught and learned early and reinforced often, over periods of time they become automatic and instinctive. We believe that the NEFE program is very effective and we have several Teachers and Educators using it in our county. If you are a Teacher or Educator and would like to learn more about the **FREE** NEFE program please to call Shannon Allmon @ 419-675-2322 for more information.
